war and those too young to be prejudiced by it are now voters, and the republican New England is wavering in its allegiance to the grand old party because the issue which gave to that party life and power was special.

The democratic party is a friend to later, it would retain a few the mast part it are now voters, and the republican here preciously of government and the company of government and the company of existence is a few to the interests of household.

The democratic party is a friend to later, it the grand old party because the issue which gave to that party life and power was special and not fundamental, and so the principles of Jefferson are steadily growing as these young voters participate in public affairs. People who pass middle life rarely change their party feality, but the young voter who does not inherit his politics is free to act from convictions of right. For this reason the democratic party has survived all others, while three great parties and many minor ones have for a hundred year-opposed it. All have died or wanel as the occasion for their existence passed away. Extencies may arise and pass, but principles are unchangeable.

The democratic party is a friend to below: it would be been unchanged to the interests of humanity. We mean usually rick in mount. Don't shock the system with the ordinary pills-get Dr. Pierce's Pleasant Pellets.

They're the smallest, for one thing (but that's a great thing), and the easiest to take.

They're the best, for they work in Nature's own way-mildly and gently, but thoroughly and effectively. They're the cheapest, for they're

guaranteed to give satisfaction, or your money is returned. You pay only for the good you get. What more can you ask?

But don't get something that the dealer says is "just as good." It may be better for him, but it's pretty certain to be worse for you.

The old saying that "consumption can be cured if taken in time" was poor comfort. It seemed to invite a trial, but to anticipate failure. The other one, not so old, "consumption can be cured," is considered by many false. Both are true and not

Catarrh-Remove the Cause.

I was afflicted from infancy with Catarrh, and for ten years with eruptions on my face. I was attended by the best physicians, and used a number of Blood remedies with no per-manent relief. MY LIFE BECAME A BURDEN TO ME, for my case was declared incurable. I saw S. S. S. advertised, and took eight bottles, which cured me entirely, and I feel like a new person.-Miss Jostii Owen, Montpelier, Ohio.

I was the victim of the worst case of Catarrh that I ever heard of. I was entirely deaf in one ear, and all the inside of my nose, including part of the hone, sloughed off. No sort of treatment benefited me, and physicians said "I would never be any better." As a last resort I took Swift's Specific, and it entirely cured me and restored my hearing. I have been well for years, with no sign of return of the disease.—Mrs. Josephine For Bill, Due West, S. C. S. S. THE EXCRETORY ORGANS.

The excretory organs consist of the ungs, the kidneys and the skin. The lungs remove the carbonic acid from the blood, the kidneys remove the uric acid from the blood, and the skin removes the surplus water and at the same time assists the lungs in removing the carbonic acid. Now if the skin be suddenly chilled the small pores through which the water has been oozing are stiddenly closed. The work is then thrown upon the lungs and the kidneys. If a large portion of the skin is thus affected the kidneys refuse to perform their office, and in commor language the cold settles upon the kid neys, and the result is that all the work of purifying the blood has to be done by the lungs, and if this is prolonged for any length of time they break The best thing to do down, the result is pneumonia, pleuany derangement of the Liver, stimulates the circulation, and thus enables the system to tell part of their work.
